THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Meets with: FINAN 6590
Note: This class covers financial analysis, valuation, strategy, and accounting issues related to mergers and acquisitions and other major corporate events during the lifecycle of firms (e.g., raising capital, share repurchases, leveraged buy-outs). The course content is relevant for all business students who are interested in understanding how companies grow and maximize long-term value for their stakeholders. The knowledge and skills you will learn can be applied in a wide array of careers in finance, accounting, consulting, entrepreneurship, or corporate strategy.

	ACCTG	**6910-002**	**TPC**	**3**	**MAcc Acccounting Analytics**	**TuTh**	**02:00PM - 03:20PM**	**SFEBB**	**5170**	**BAY,JAMES G**	

Note: This course will introduce students to the typical data analytical skills and tools that accounting students should master to meet the demands of our profession and to prepare for the CPA exam.
These skills include the following:
1. Data Analysis and Interpretation: Accountants need to be comfortable dealing with large volumes of data and should be able to interpret that data to make informed decisions. They should be able to spot trends, anomalies, and correlations in the data.
2. Financial Analysis: This includes understanding financial statements, conducting ratio analysis, and carrying out profitability assessments. Financial analysis skills are key to making strategic recommendations based on financial data.
3. Critical Thinking: Critical thinking is about asking the right questions, interpreting the data in hand, and making well-informed decisions. It's important to evaluate the validity of data and challenge assumptions when necessary.
4. Analytical Thinking and Problem-Solving: Accountants need to solve complex problems such as reconciling conflicting reports or resolving discrepancies. This requires

	ART	**4805-001**	**TPC**	**3**	**Special Topics-ArtTeach** Meets with: ART 480 Note: This course critically explores social structures such as race, class, gender, and ability through the arts. As participants study civically engaged art and social theory, they will respond by creating individual and collaborative artworks in various forms, including visual art, dance, and poetry. The course will include visits with local artists and activists and will culminate in a student-driven, collaborative, socially engaged artwork. Open to all students. No prior art or theoretical knowledge required. Course fees cover all materials.	**MW**	**03:05PM - 05:00PM**	**ART**	**352**	**PORTER WILLIAMS,SYDNEY REBEKAH**	
	ART	**4825-001**	**TPC**	**3 - 4**	**Special Topics in Photo** Note: Class will be meeting in the new Digital Photo Lab Room ART 264A (around the corner from the dark room) Note: This class investigates the photographic process, platinum and palladium printing. This nineteenth century technique is known for its superior detail and unsurpassed tonal range. Students will explore the historical, chemical, and aesthetic aspects of the process. No prior darkroom knowledge required. Open to all Art majors with instructor consent. Course fees cover all materials and paper.	**F**	**09:10AM - 03:20PM**	**ART**	**361**	**CARYN RIZZOTTO,LAUREL**

THIS SCHOOL ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this school to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

	Note: The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login Note: Sections 002-008 belong to this class. Students will be automatically registered for this lecture section when registering for the pertinent discussion section. Learning Assistants (LAs) are attached to this section. LAs are undergraduates who are familiar with course content and trained in small group facilitation. This course includes opportunities for in-class collaborative, active learning, during which students discuss ideas and problem-solve together.

	BIOL	**3960-001**	**TPC**	**3**	**Gene Expression Lab**	**Tu**	**12:25PM - 01:45PM**	**BIOL**	**150**	**RUPPER,ADAM C**	
						TuTh	**02:00PM - 05:00PM**	**CSC**	**105**	**RUPPER,ADAM C**	
Note: This is an inquiry-based laboratory course focused on transcriptional regulation in yeast. Students will spend the first few weeks developing a hypothesis driven research plan to study the regulation of a promoter of interest. Students will then use various molecular biology techniques to create yeast strains that express Green Fluorescent Protein in response to activation of the promoter of interest, and then study the function of this promoter according to their research plan. Finally, students will communicate their research findings with their classmates at the culmination of the course. This course counts as an L2 lab in the Biology major. Pre-reqs: BIOL 1615 or BIOL 1625, AND BIOL 2020. Please request a permission code here: https://www.biology.utah.edu/permission-codes/

	Note: This course will focus on fundamental experiments of optics and molecular biology. In lectures, we will trace the foundation of microscopy through optics— from Newton's work with prisms, through Hooke's and van Leeuwenhoek's microscopes, to modern light and confocal microscopy. We will also discuss how microscopy has established fundamental theories such as the cell theory and synapse theory, and how it is used today to study cell and organelle function. In parallel, the laboratory sections of this course will use modern methods to recreate these classic experiments and train students in experimental design and best practices. Pre-requisite: BIOL 2020 or 2021. This course counts as an L2 lab in the Biology major. Please request a permission code here: https://www.biology.utah.edu/permission-codes/ This course is not available to students who took BIOL 3960 Spring 2023.

	Note: Product Design (recommended for 4th and 5th year Chemical Engineering students) This course teaches chemical engineers how to turn ideas into potentially profitable products and services. Students will discover how to develop innovative product concepts that respond to or anticipate market needs and sustainability objectives. Additionally, students will develop skills for identifying and selecting suitable chemicals and materials for your product's development through real-life case studies and mini-projects. Finally, students will learn to how to incorporate safety measures and comply with regulatory requirements throughout the design process.

Note: Sections 2 - 10 belong to this section. This course requires registration for a laboratory section and you will be automatically registered for the lecture. Supplemental Instruction (SI) is attached to this section. SI provides free, organized group study sessions in which students actively focus on course content, test preparation, and study skills. SI is facilitated by trained student SI leaders. SI session times are determined the first week of class. See https://learningcenter.utah.edu/supplemental/index.php for more information. The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login

Note: Learning Assistants (LAs) are attached to this section. LAs are undergraduates who are familiar with course content and trained in small group facilitation. This course includes opportunities for in-class collaborative, active learning, during which students discuss ideas and problem-solve together. The course fee covers digital course materials including the textbook and Mastering Chemistry through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login. In addition to online materials, students will be required to purchase a stand-alone course worksheet packet, which will be available through the Student Bookstore for a cost of approximately $40.

Physical/Life Science Exploration
Note: The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login
Note: Sections 2-3 belong to this section. This course requires registration for a discussion section and you will be automatically registered for the lecture. Students should be concurrently registered for CHEM 1215 laboratory. Supplemental Instruction (SI) is attached to this section. SI provides free, organized group study sessions in which students actively focus on course content, test preparation, and study skills. SI is facilitated by trained student SI leaders. SI session times are determined the first week of class. See https://learningcenter.utah.edu/supplemental/index.php for more information.

	Note: The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login Note: Sections 2 - 3 belong to this lecture. This course requires registration for a discussion section. Students will be automatically registered for this lecture section when registering for the pertinent discussion section. Supplemental Instruction (SI) is attached to this section. SI provides free, organized group study sessions in which students actively focus on course content, test preparation, and study skills. SI is facilitated by trained student SI leaders. SI session times are determined the first week of class. See https://learningcenter.utah.edu/supplemental/index.php for more information.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

02/29/2024 - 04/23/2024
Note: Power, Politics, and Profits: Practical advice on how to succeed in any organization.
In this class you will receive practical advice on how to succeed in any organization. You will learn how internal company politics work, what drives people to seek more power, and how the need for profits impact decision making. You will learn how to read a financial statement, (don't be scared by this) entrepreneurship best practices, and how to recognize and deal with conflict. This class is for humanities majors who aren't great at math, that don't have a business background, but who need practical advice on how to succeed in their future career. We will also talk about the often overlooked fourth P, which is Purpose. With the right purpose, organizations and employees can find meaning in their work.

	Note: Community Storytelling for Radio and Multimedia - This hands-on course will result in a multi-episode radio/podcast series that will air as part of KRCL 90.9's RadioActive and made available to its radio networks and broadly available podcasting platforms. Students will work as a team and with local community partners to report, co-host and produce at least five episodes that amplify stories from within Salt Lake City's diverse communities. Students, in collaboration with community media and non-profit partners, will produce a multimedia project that includes storytelling for audio, social media and online/print platforms. Course will include required, off-campus meetings and work sessions. Students should have successfully completed COMM 1610 or its equivalent and COMM 3555. Interested students should email Professor Marcie Young Cancio - marcie.young.cancio@utah.edu

Quantitative Intensive BS
Quantitative Intensive BS
Meets with: MATH 4100
Note: The formal prerequisite for this course is Calculus I (UU Math 1170, 1210, 1250, 1310, 1311 or equivalent). In addition, we expect that you have some basic programming fluency. For an add code, please fill out the permission request form on www.cs.utah.edu

	COMP	**5960-001**	**TPC**	**3**	**Sci. and Data Comp**	**MW**	**03:00PM - 04:20PM**	**MEB**	**2325**	**SHANKAR,VARUN**	

Meets with: CS 6220
Note: This course will cover the foundations of function, derivative and integral approximation, numerical linear algebra for the solution of large systems of equations (including but not limited to gradient descent and Krylov methods), numerical methods for the solution of ordinary differential equations (ODEs), and numerical methods for the solution of partial differential equations (PDEs). We will also discuss using machine learning techniques to both solve PDEs and infer them from data. We will use a unified framework to build all our numerical methods up from the concept of function approximation.

	Meets with: CS 6959										

Note: This course will cover recent trends and practices in data management with a particular focus on human-centered aspects. We will emphasizes the central role of humans in data management. The course will cover: spreadsheet systems, data cleaning and transformation systems, notebook-centric analysis tools, explanation and provenance systems, data discovery systems, approximate query processing systems, speech and natural language querying systems, text and video analysis systems, semi-structured data systems. The emphasis will be on a mix of human-centric concerns, interface ideas, and scalable data processing ideas with a focus towards the end user. Topics will include NoSQL and other structured data systems, data systems usability and accessibility tools such as visual query languages, speech-based query languages, query by example, etc. The course will cover best practices for user interface (UI) design for data-management systems, user interactions, user modeling, and user experience (UX). The course will also cover recent tools and techniques for enhancing data quality such data cleaning, wrangling, transformation, meta-data management, and tools and techniques for data discovery, exploration, visualization, debugging, and data provenance. The course will have an emphasis on building usable tools for data analysis tasks and how data systems should be designed to assist their users in computation and analysis. The pre-requisite is CS 3500.

Class#	Sub.	Cat.#-Sec.	Cmpt	Units	Title	Days	Time	Location		Instructor	Fees
	CS	**3960-002**	**TPC**	**2**	**Software Practice II-CE**	**TuTh**	**12:25PM - 01:45PM**	**WEB**	**L104**	**HEISLER,ERIC TAYLOR**	
	01/08/2024 - 02/28/2024 Note: This class meets with CS 3505 001. Please contact the professor to coordinate a lab section. Note: Prerequisites: Full Major Status in Computer Engineering.										
	CS	**3960-003**	**TPC**	**3**	**Intro Computational Geomet**	**MW**	**01:25PM - 02:45PM**	**WEB**	**L126**	**ROSEN,PAUL ANDREW**	
	Note: Computational geometry is the study of efficient algorithms to solve geometric problems, with applications in data analysis, computer graphics, visualization, robotics, computer vision, image processing, gaming, user interface design, and animation. Topics covered in this course include foundations, polygon partitioning and triangulation, line intersections, convex hulls, Voronoi diagrams, Delaunay triangulation, and point arrangements and search. This course includes weekly homework problems and several programming assignments designed to provide hands-on experience with 2D geometry. At the end of this course, students should be able to identify different problem-solving strategies and tradeoffs for solving geometric problems in real-world scenarios. Note: Pre-reqs: CS 2100 and CS 3500.

Meets with: CS 6960
Note: The classic paradigms in algorithm design include divide and conquer, greedy selection, dynamic programming, etc. But over the last 3-4 decades, a much richer set of techniques have transformed algorithm design. These include geometric and continuous "relaxations" for problems, leveraging tools from probability theory and optimization (e.g., gradient descent), and so on. The goal of this course will be to introduce some of these methods, and how they have had significant impact on the development of areas like data science.
Pre-requisite: CS 4150

	CS	**4961-001**	**TPC**	**3**	**Special Topics**	**TuTh**	**02:00PM - 03:20PM**	**WEB**	**1230**	**VAN DER MERWE,JACOBUS ERASMUS**	

Meets with: CS 6961
Note: CS 4961/6961 is a combined undergraduate/graduate level course on Mobile and Wireless Networking with a systems emphasis. The course will cover basic principles of wireless communication and focus on understanding and applying those principles in practical systems. The course is suitable for both undergraduate and graduate students who have completed the prerequisites, i.e., "B" or better grade in CS 4480 (or an equivalent computer networking course).

	CS	**4964-001**	**TPC**	**3**	**Manage Data for & with ML**	**TuTh**	**12:25PM - 01:45PM**	**WEB**	**L112**	**REZIG,EL KINDI**	

Meets with: CS 6964
Note: This course provides a broad exploration of the practical skills essential for handling, preparing, ingesting, indexing, and analyzing large datasets for machine learning applications. Students will explore various topics, including relational databases, optimizing dataset storage, data cleansing techniques, and large-scale data processing systems (e.g., Spark). The class also covers learned indexes and large-scale data visualization. This hands-on course aims to equip participants with the knowledge and proficiency to effectively manage and analyze vast datasets for machine learning applications. The prerequisite is CS 3500.

	CS	**4992-001**	**PRJ**	**2**	**CE Senior Thesis II**	**TBA**	**TBA**	**TBA**	**TBA**	**STEVENS,KENNETH S.**

Meets with: CS 6963											
Note: This class will prepare students to become effective software testers capable of automating vulnerability discovery in today's large and complex software systems. This course will cover the fundamental design considerations behind today's state-of-the-art software testing tools, and equip students with the know-how to soundly evaluate their results and effectiveness. Students will team up to target a software or system of their choice, and devise their own testing strategies to find new vulnerabilities in it, analyze their severity, and report them to its developers. Prerequisites CS 3505, CS 4400 and CS 4440											
	CS	**5968-001**	**TPC**	**3**	**Designing Citizen Science**	**MW**	**11:50AM - 01:10PM**	**WEB**	**L110**	**PANDEY,VINEET**	
Meets with: CS 6968											
Note: Designing Novel Computing Systems for Science and Medicine. This special topics course in Human-centered Computing (HCC) will provide PhD, MS, and BS students with the concepts and skills to answer the question "How might online platforms augment communities' access to scientific expertise and high-quality data?". In this class, we will design novel online/social platforms for deeper, beneficial public participation in science and medicine. After taking this course, students will be able to develop participatory models of producing knowledge and apply it to a research topic of their choice. For topics, class structure, and methods, see https://vineetp13.github.io/DesigningScience.html. Pre-requisite: CS 3540											
	CS	**6020-001**	**LEC**	**3**	**Early-Career Research**	**TBA**	**TBA**	**TBA**	**TBA**	**LEX,ALEXANDER**

	CS	**6953-001**	**PRA**	**3**	**Deep Learning Capstone**	**Tu**	**01:00PM - 03:00PM**	**MEB**	**3147**	**HENDERSON,THOMAS C AL HALAH,ZIAD**	
	CS	**6956-001**	**TPC**	**3**	**Medical Robotics**	**TuTh**	**03:40PM - 05:00PM**	**GC**	**2660**	**KUNTZ,ALAN DAVID**	
	Note: This course will cover a broad range of concepts related to modern surgical, interventional, and diagnostic medical robotic systems. Topics to be covered include commercial surgical robot systems, medical imaging, telemanipulation, surgical robotics mechanisms, registration, microrobots in medicine, continuum medical robots, and motion planning and automation for medical robots.										
	CS	**6959-001**	**TPC**	**3**	**Special Topics**	**MW**	**04:35PM - 05:55PM**	**MEB**	**2325**	**FARIHA,ANNA**	
	Meets with: CS 3960										
	CS	**6960-001**	**TPC**	**3**	**Algorithms, Geometry, and**	**MW**	**11:50AM - 01:10PM**	**WBB**	**617**	**BHASKARA,ADITYA**	
	Meets with: CS 4960 Note: Algorithms, Geometry, and Optimization The classic paradigms in algorithm design include divide and conquer, greedy selection, dynamic programming, etc. But over the last 3-4 decades, a much richer set of techniques have transformed algorithm design. These include geometric and continuous "relaxations" for problems, leveraging tools from probability theory and optimization (e.g., gradient descent), and so on. The goal of this course will be to introduce some of these methods, and how they have had significant impact on the development of areas like data science.										
	CS	**6961-001**	**TPC**	**3**	**Special Topics**	**TuTh**	**02:00PM - 03:20PM**	**WEB**	**1230**	**VAN DER MERWE,JACOBUS ERASMUS**	
	Meets with: CS 4961 Note: CS 4961/6961 is a combined undergraduate/graduate level course on Mobile and Wireless Networking with a systems emphasis. The course will cover basic principles of wireless communication and focus on understanding and applying those principles in practical systems. The course is suitable for both undergraduate and graduate students who have completed the prerequisites, i.e., "B" or better grade in CS 4480 (or an equivalent computer networking course).										
	CS	**6963-001**	**TPC**	**3**	**Applied S/W Secur Test**	**MW**	**01:25PM - 02:45PM**	**WEB**	**L114**	**NAGY,STEFAN**	
	Meets with: CS 5963 Note: This class will prepare students to become effective software testers capable of automating vulnerability discovery in today’s large and complex software systems. This course will cover the fundamental design considerations behind today’s state-of-the-art software testing tools, and equip students with the know-how to soundly evaluate their results and effectiveness. Students will team up to target a software or system of their choice, and devise their own testing strategies to find new vulnerabilities in it, analyze their severity, and report them to its developers.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Office Address: MCD 106 Phone: 801-581-7327

Departmental Advisors:

Undergraduate Advising CFA Advisors MCD 126

Director of Undergraduate StudiesSara Pickett MCD 114

Director of Graduate Studies Eric Handman MCD 213

All classes are for dance majors only unless otherwise specified (for non majors) or with permission from the instructor.

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS SCHOOL ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this school to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Dentistry

Office Address: 530 South Wakara Way, SLC, UT 84108 Phone: 801-581-8951

Departmental Advisors:

All classes are for matriculated dental students only.

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Note: The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login

Meets with: EAE 6250

Data Projection
Meets with: EAE 6900
Note: Pre-Reqs: Full major in Games. Non and pre-majors will be removed.
In this course we will examine in-depth a variety of cognitive principles relevant to the design of video games. The purpose of this course is two-fold: (a) to provide students with a deep understanding of the psychology at work during play and (b) to identify how to make psychological principles actionable during the process of designing a video game. We will explore challenges around human perception, attention, memory, problem solving, and learning, in order to predictably design the engaging games we intend. The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login

Note: This seminar combines theory and practice as students study a game genre (established or emergent) by critically playing, engaging with scholarly work, and meeting to discuss and present on the games studied. The game genre of study will vary from semester to semester. This semester's genre will be "tactical" games.

Pre-req: Major Status, BS in Games or Emphasis in EAE (CS). Fill out permission request form on the Games website for a code. *Note: This course is 1 credit only, and Games electives must be 3 credits each. See advisor regarding how this course will apply to your Games degree.

Meets with: EAE 6900
Note: Real-time VFX is a type of dynamic animation used to add polish and breathe life into a game. It encompasses anything that moves that isn't a character or an object, and is typically split into two categories; gameplay effect and environment effect. Things like water, fire, explosions, spells, and electricity are typical effects that a VFX artist may develop for a project. This course will cover fundamental elements of VFX like creating particle systems, authoring complex shaders and materials, optimization, generating and using flip books and more.

Note: This theory-based course focuses on how digital technologies have shaped how we perceive, experience, and interact with urban environments. By applying theory from urban aesthetics and games studies, students will focus on gaming mechanics and technology encountered in urban areas and how these technologies can help reimagine public social spaces as playful cities. Specific topics include 'serious-gamification', technology and the natural environment, hostile design, and playable cities.

	Note: Through readings, lectures, collaborative discussions, presenting out research and working through building a high level business plan, you will undertake a crash course in learning how to manage a video-game business, including how it will affect your design decisions. You will leave this class with strategies on how to present your game to a publisher, how to present yourself in a professional and business-minded way, use industry standard resources for forecasting and research, and have the tools to create your own internal business plans to give you a leg up in this extremely competitive and highly volatile arena. This is a highly participatory class where you will be doing research on current live projects, presenting analysis and business plans to your classmates, and generally diving deep into the business side of the industry to see how understanding that landscape may affect your production and design plans for your next opus.

ALL STUDENTS TAKING ELECTRONIC ENGINEERING LABS MUST PURCHASE ELECTRONIC COMPONENTS.
For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.
THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please fill out the Registration Permission Code request form found on our website at http://www.ece.utah.edu/ . You may be administratively dropped from a course if the prerequisite has not been met.

Academic Advising Coordinator John Bolke MEB 2110D

	Data Projection										
	ECE	**3960-001**	**TPC**	**2**	**Intro to Sensors & Transdu**	**MW**	**10:45AM - 11:35AM**	**WEB**	**1230**	**COHEN,RICHARD M AHMAD,TANVIR**	
	Meets with: MSE 5050 Note: The class introduces the principles of operation of both traditional sensors and the most important solid state micro sensors which are now found in the vast majority of consumer, biomedical, automotive, aerospace, energy and robotics products. The class will couple practical examples and experimentation with first introductions to the underlying principles in solid state device physics and electronic properties of materials. Students will leave the class with practical knowledge and skills in using sensors and understanding sufficient basic concepts to be ready to then pursue more advanced classes in semiconductor devices (readying them to leverage the growth in the semiconductor business due to the Chips act), micro and nanofabrication, advanced sensors or to enter novel areas in robotics, energy, transportation and biomedical devices. This laboratory class presents exciting experiments that use the solid state micro sensors controlling today's most important products in the consumer, biomedical, automotive, aerospace, energy and robotics fields. These hands-on experiments will be linked to the underlying principles of solid state device physics and of electronic properties of materials. Students will learn practical skills using sensors and become prepared for advanced classes in semiconductor devices, advanced sensors, and micro and nanofabrication. The goal is to prepare students for future jobs in robotics, energy, transportation, and biomedical devices. Co-registration in ECE 3960-002 (lab) is required.

Note: This is a graduate-level course on model-based statistical inference. Suppose you are given a dataset, and you would like to fit a model that involves unknown parameters. How to estimate the unknown parameters? How good are your estimators (are they optimal in some sense)? In this course, you will learn (1) how to construct different efficient estimators to estimate unknown parameters under both frequentist and Bayesian models, (2) how to quantify the performances of the estimators, and (3) various efficient methods for signal detection.
This course is useful for students interested in careers or research in data science/machine learning, statistical signal processing, communications theory, learning and adaptive systems, and related areas.

Class#	Sub.	Cat.#-Sec.	Cmpt	Units	Title	Days	Time	Location		Instructor	Fees
	ECE	**6960-009**	**TPC**	**3**	**Intro Wide Bandgap**	**TuTh**	**02:00PM - 03:20PM**	**WEB**	**L120**	**FU,KAI**	

Note: Semiconductors with wide bandgaps (WBG), such as GaN, SiC, Ga2O3, AlN, and Diamond, have played an important role in various aspects of our lives due to their applications in LED, laser, detectors, and power devices. This course aims to provide an introduction to the properties of these innovative materials and their practical uses. The content encompasses the development of WBG semiconductors, their essential characteristics, synthesis methods, and the design of optical and electronic devices based on WBG. The course will also incorporate hands-on testing on WBG devices, including LEDs, diodes, and transistors.
Note: Introduction to wide bandgap semiconductors and their applications

	ECE	**6960-010**	**TPC**	**0.5 -**	**Hardware Cryptography/Secu**	**MWF**	**10:45AM - 11:35AM**	**WEB**	**L126**	**KALLA,PRIYANK** **WAHID,ASIF**	

Meets with: ECE 5960

	ECE	**6960-011**	**TPC**	**1**	**TA Training**	**M**	**04:10PM - 05:00PM**	**WEB**	**L122**	**VERKLER,AMY V**	

Meets with: ECE 5960

Note: optional IVC (Zoom) discussion section Wed 2-2:50
Note: The purpose of this course is for graduate students to explore a variety of career options (industry, academia, national labs, policy), and the skills that can lead to strong career success and technical leadership. The course covers Career Development, Research Development, and Network/Mentoring Development and is variable credit, allowing students to select assignments from each area to best fit their interests and needs. Career Development includes creation of an Individual Development Plan (IDP), team and leadership skills, preparation for career fairs, interviews with stakeholders to explore career options, and more. Research Development is based on the Lean Canvas approach which encourages research students to explore their research area not only in the traditional way (professional literature) but also business and patent literature, and direct interviews/visits with professionals working in their field who may later be users of their research output. Network and Mentoring Development helps students develop a formal mentoring plan, find people to help guide their individual areas of growth, and learn skills to effectively engage with mentors and their professional network throughout their careers.
Note: Career, Research, and Network Development for Graduate Students

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system does not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

03/18/2024 - 04/21/2024 Note: Design Strategy in Entrepreneurship is for PMBA and MBA students only. Class meets on Wednesday's session 2, March 18, 2024 - April 21, 2024. This course provides an in-depth exploration of the design process, specifically aimed at solving business problems in innovative spaces. Each week, students will engage with a different stage of the design process, from ideation to concept development. The course aims to cultivate an innovative and creative mindset, equipping students with the skills to apply design thinking to real-world business challenges. (This is good for entrepreneurship as well).											
	ENTP	**6850-007**	**TPC**	**1.5**	**Design Thinking for Innova**	**W**	**06:00PM - 10:00PM**	**GARFF**	**2345**	**BOWEN,CORD ALEXANDER**	
02/02/2024 - 03/17/2024 Note: Creative Research Strategy in Business -class meets on Wednesday's from 6-10 pm February 12, 2024 - March 17, 2024. This course explores design research methodologies in the context of business strategy, fostering a creative mindset. Students will learn to gather and analyze data to understand user needs and improve products or services. The course introduces service design as a framework for early-stage product development and innovation.

02/02/2024 - 03/17/2024

Note: Leading and Growing the Family Firm. This is an ONLINE course. Session 2, February 12, 2024 - March 17, 2024. Family-owned companies range from small to large, from local to multinational, and from privately-held to large publicly-traded closely-held corporations—that is, corporations controlled by the founding family.
The involvement of family in these enterprises can be a source of strength and advantage, but can also spark managerial challenges that can cripple, if not destroy, the family firm. The overall purpose of this course is to develop skills and strategic knowledge that allows you understand and leverage the strategic advantages of family firms, while anticipating the unique challenges that sometimes arise when family and business meet. The course is designed for students who are interested in working in family firms (e.g., as entrepreneurs, managers, owners) or with family firms (e.g., as advisors, consultants, board members, bankers) or who come from a family firm background (e.g., next generation family owners).

All ESSF classes are graded as Credit/No-Credit (C/NC). Letter grades are not awarded except in ESSF1098.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Meets with: FILM 6945 Note: For permission to register please email Professor Jude at g.jude@utah.edu. This course builds on the basic recording skills covered in Sound for Film, focusing on sound design and production recording skills. Students will hone technical and close listening skills, with lab access to a wider range of microphones and digital recording devices. They will then apply those skills to a group project of their choice before proposing their own individual film and media arts projects as the culmination of the course.

Note: This course is hosted entirely through Canvas. Students enrolled must log into the Canvas course one week prior to the start of semester as assignments are due the first week of class. The course has weekly deliverables and no extension of due dates will be given. Each module requires extensive textbook reading, video lectures and self-study. Deliverables are comprised of weekly homework assignments, weekly quizzes, a midterm, and a final exam, all with fixed closing times on a strict calendar schedule. Exams will be proctored through University testing centers or virtually proctored online. This is an online course, which does not have a specific meeting time or location throughout the semester. For additional information, please visit https://online.utah.edu/about-online-learning/

	01/09/2024 - 03/19/2024									
	Note: The course deals with the introduction and evaluation of options and future contracts. These financial instruments provide claims for future cash flows and are written on various underlying assets – from securities to bond portfolios. Financial theory has developed sophisticated evaluation tools for these instruments. The emphasis of the course will be on the evaluation of these financial contracts and presenting their use in setting potentially profitable investment strategies. We will also analyze the market structure in which these financial contracts are traded and focus on some institutional considerations.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Placement exam required for 1020, 2010, 2020 and 3000-level courses for students not already registered in language courses. See webpage at https://languages.utah.edu/language-requirements/language-placement-testing.php for more information. For answers to questions email wlc-advising@utah.edu or call (801) 581-7561.
For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Departmental Advisors:

J.D. Program Natasha Carlton natasha.carlton@law.utah.edu

THIS DEPARTMENT ENFORCES PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

01/08/2024 - 04/23/2024
Meets with: H GEN 6700 , MD ID 7251 , PHIL 6525
Note: This class meets with PHIL 6191-002. To determine the last day to drop this cross-listed course see http://registrar.utah.edu/handbook/miscellaneous.php.

	LAW	**7908-090**	**LEC 3**	**Prob Solving & Analysis**	**TBA**	**TBA**	**Online**	**.**	**IRVIN,MIKAYLA AMY**	

Note: Students will be required to purchase a “Themis Coursebook” for the course ($100). This is the only required textbook for the course. Students will receive an email during or before the first week of school with ordering instructions. Students will pay for the text online through Themis Bar Prep and pick up the text during the first week of school as instructed by the professor. The text fee covers the printing and assembling costs and the cost of a trained Bar grader who will grade several essays during the semester to provide students with feedback and scoring mirroring the scoring on the Bar exam. Each student enrolled in the course must purchase the required text and pay the full textbook fee. The text cannot be shared between students and the text is only available through Themis, so it cannot be purchased through other sellers.
Note: Note this course is Pass/Fail and will count toward the maximum ungraded credit limit.

	LAW	**7925-001**	**FLW 1 - 1**	**Field Placement Credit**	**TBA**	**TBA**	**TBA**	**TBA**	**MORRISON,JACQUELINE ESTY**	

Community Engaged Learning
Note: Graded as Pass/Fail and will count toward the maximum ungraded credit limit.
Note: Counts toward the experiential education requirement.

University Connected Learning
Note: This is an in-person class taught by Samantha Couper and Theresa Orison. The first meeting takes place at the University Connected Learning and Continuing Education building (540 Arapeen Drive, SLC). The second session meets at the entrance to the Herd Management Area (HMA), about a 1.5-hour drive from Salt Lake City. Specific directions will be given to registered participants in the first meeting. The main road on the HMA is packed dirt/loose gravel and generally very dusty. Please be sure you have a spare tire for your vehicle. This trip may require some light hiking. Binoculars, a spotting scope, or cameras with zoom lenses are encouraged (the instructor will provide a scope and binoculars for participants to share). The final session will be held online.

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please go to www.math.utah.edu (the link in the middle of that page) to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

	MATH	**2281-001**	**LEC 4**	**Enhanced Intro De's**	**MTuWF**	**08:35AM - 09:25AM**	**LCB**	**222**	**HOHENEGGER,CHRISTEL**	
	Note: This course is designed for students who are interested in getting a deeper understanding of ordinary differential equations than is obtained in MATH 2280. It's more work than MATH 2280, and students will be expected to learn more material than is taught in MATH 2280. It satisfies all the prerequisites and degree requirements that MATH 2280 does.

Departmental Advisors:

Undergraduate Studies Office Debra Mascaro MEK 1560 - 801-587-8479

Graduate Studies Office Mark Fehlberg MEK 1568 - 801-585-9293

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Class#	Sub.	Cat.#-Sec.	Cmpt	Units	Title	Days	Time	Location		Instructor	Fees
	ME EN	**1000-001**	**LEC**	**3**	**Intro Desgn for Eng Sys**	**MW**	**03:00PM - 04:20PM**	**MEK**	**3550**	**DILLON,M M**	
	Note: This course requires enrollment in a corresponding lab section. Open to all students enrolled in Calculus I or higher or who already have credit for Calculus I. Students must have full major status to enroll in any subsequent ME EN course.										
	ME EN	**1000-004**	**LAB**	**3**	**Intro Desgn for Eng Sys**	**Th**	**02:00PM - 05:00PM**	**MEK**	**0670**	**DILLON,M M**

	Note: Influence(rs) in the Age of Social Media is a special topics survey course about the practices and impacts of social media, particularly as they are articulated by the social media influencer (SMI) industry. This course will assess the intersection of social media platforms, influencer imperatives, and organizational use of social media, and this intersection's implications for ethical business practices. The purpose of this course is to blend learning and application of communication theories with critical assessment of texts and cases in order to enhance understanding of the complexities of the ever-changing social media landscape and its relevance to students pursuing careers in business.

02/14/2024 - 04/17/2024
Note: Class meets 02/14/2023 - 04/17/2023. Class content will be online with mandatory webinar/zoom sessions for live guest speakers.
Nonprofits are complex businesses, built on a foundation of ethical action grounded in the public trust. Starting, growing, and leading nonprofits creates challenges that are in some cases more complex than those facing the private sector. Nonprofits are confronted not only with fundamental business decisions, but also with ethical issues inherent in their role in our society: addressing the needs of multiple constituencies, balancing values against the requirements of effective management, and creating the greatest common good with limited resources. This course offers students a broad overview of the ethical and overall business leadership challenges of the nonprofit sector, while also providing an opportunity to put their business skills in action by completing a group consulting project for a nonprofit.

	MSE	**5050-014**	**TPC**	**3**	**Technology of Advanced Cer** Meets with: MSE 6050 Note: This course will benefit upper division undergraduates, as well as graduate students, who have interest in learning the technology of nonmetallic, inorganic materials (oxides, nitrides, carbides, borides, semiconductors, etc.). Zirconia, SiC, Si3N4 and SiAlONs, 2Al2O3.2MgO.5SiO2 (cordierite), CeO2, diamond and c-BN, BaTiO3 and other ferroelectrics, solid state sodium ion conductors, and B4C will be discussed relative to technological advances with Utah connections	**TuTh**	**02:00PM - 03:20PM**	**GC**	**3700**	**CUTLER,RAYMOND**	
	MSE	**5050-015**	**TPC**	**3**	**Polymer Material:3D Printi** Meets with: MSE 6050 Note: This is an advanced course for MSE and other science and engineering students on the topic of 3D printing for polymer materials. This course focuses on the fundamentals of 3D printing techniques, as well as the structure-process-property relationship of printed polymer materials, with special focus on the polymers used in vat photopolymerization printing processes. Advanced topics include (i) molecular design strategies for photopolymers, (ii) metal and ceramic printing aided by polymers, and (iii) metamaterials and multimaterials.	**TuTh**	**10:45AM - 12:05PM**	**FASB**	**362**	**WANG,CHEN**

International Requirement, Fine Art Exploration
International Requirement & Fine Arts Exploration
Meets with: MUSC 360
Note: This course offers students the opportunity to concurrently enroll in a (1) credit Spanish or Portuguese Language discussion section. To make the achievement of intercultural competence possible for all students, Cultures and Languages Across the Curriculum (CLAC) programs integrate different languages and cultures into a variety of curricular contexts beyond the traditional foreign language classroom. Enroll in MUSC 4899-001 CLAC (Spanish) OR MUSC 4899-002 CLAC (Portuguese) to participate in the Cultures and Languages Across the Curriculum (CLAC) cultural learning model. May be taken with MUSC 4899-001 CLAC (Spanish) OR MUSC 4899-002 (Portuguese). The course fee covers digital course materials through the Inclusive Access program. Students may request to opt out here: https://portal.verba.io/utah/login

	MUSC	**3600-002**	**LEC**	**3**	**World Music**	**MWF**	**08:35AM - 09:25AM**	**DGH**	**270**	**PRESTLEY,JACKSON DALE**

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

University Connected Learning, International Requirement, Flexible Schedule, Sustainability
International Requirement
Note: This class meets IN PERSON in GC 1570 the week prior to spring semester, Tues - Fri, Jan 2 - 5 from 8:00 a.m.-5:00 p.m., PLUS the 4th Monday of each month throughout the semester, Jan 22, Feb 26, Mar 25 and Apr 22, from 6:00-8:00 p.m. via CANVAS. Students are required to attend each class session and will be provided with a lunch break daily. In addition to time spent in the classroom, students will also be required to complete additional online lectures, assignments, and exams. Reading and/or assignments may be due prior to first day of class. Please check with instructor or refer to the class syllabus in the class schedule or Canvas. Please call 801.585.9963 with questions. To prevent time conflict errors, register to other classes first, then add this class using a permission code. Click here for more detailed information on registration and to get a permission code: https://continue.utah.edu/credit/codes To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

Departmental Advisors:

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE AND GRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Note: This class will be held in HCI Research South-3C.

Prerequisite: This course is designed for Molecular Biology and Biological Chemistry graduate students.

Regulated cell division is critical to normal cell function, whether during development, regeneration, or in tissue maintenance. Dysregulation of the cell cycle is a major factor in many human diseases, most notably all types of cancers. This course will give students an in-depth view of the mechanisms of cell division and proliferative control. The course will be structured around classic and current literature reporting advances in the understanding of cell cycle events. Through discussion we'll consider how these events are integrated, and how mechanistic knowledge impacts our understanding of and approach to human disease. This will often relate to implications for cancer (therapeutic sensitivity, tumorigenesis, etc.), but may extend to other diseases. This is an advanced seminar course with a focus on critical reading of primary literature and student presentations.

	03/04/2024 - 03/04/2024 University Connected Learning Note: Osher Night at the Utah Jazz: As part of Osher's 20th Anniversary at the University of Utah, we are celebrating a special evening with the Utah Jazz. The Jazz team is also marking the 50th Anniversary of its founding. Osher has arranged for members to watch a Jazz game (vs the Wizards) from the SkyBox suite on Level 6 at the Delta Center. Our group will be allowed to enter at 5:00 pm, BEFORE THE DOORS OPEN, to watch the team shootaround from courtside seats. At 5:45, we will head up to our private suite on Level 6 for a pre-game meal. At 7:00 pm, we will head to our seats, which are just outside our suite. In addition, we will watch an introduction of Osher before the game. This opportunity has been discounted by the Jazz for Osher and space is limited so get your ticket right away. NON-REFUNDABLE $99 special fee covers all festivities, including game tickets, dinner, game time snacks, AND the early entry to watch the pre-game shootaround! There is a strict deadline to register for this event. All registration requests must be submitted by Sunday, February 25.

	04/02/2024 - 04/02/2024 University Connected Learning Note: Feed U Pantry Tour & Lunch: Think "starving student" is a thing of the past? Think again. According to the Basic Needs Collective, 34% of students at the University of Utah have reported food as a major need. To combat food insecurity, the U has established the Feed U Pantry. Here any student, faculty, or staff with a valid uNID can receive free nutritious food items. The food pantry is completely volunteer run and supported by donations. Come and receive a tour of the Feed U Pantry and hear from one of our student volunteers about the success of the pantry, all while you enjoy a delicious lunch at a private room off the Crimson View restaurant within the A. Ray Olpin Student Union. Tours will be offered before or after lunch depending on your preference. Parking is included. Registration deadline: Tuesday, March 26.

Note: ORCHESTRA: XPLOR - Dvorak's "Serenade for Strings": Celebrating the 20th anniversary year for Osher at the U of U, we want to pull all the stops! ORCHESTRA: XPLOR is a brand new, professional orchestra with a new goal in mind: unwrapping some of classical music's most profound and enticing pieces of music. This performance and lecture will focus on Dvorak's "Serenade for Strings, Op. 22" and will take the listener on an exploration through the history of Dvorak's life, his experiences with Moravian and Bohemian folk music, and an intimate guide through the serenade - melody by melody. This special performance will be the world premiere of ORCHESTRA: XPLOR and will feature a full 15-piece string orchestra LIVE and INTERACTIVE! Located at the Marriott Hotel Ballroom, the event will begin with a buffet dinner followed by a lecture and performance. Salt Lake City Marriott University Park, 480 Wakara Way, Salt Lake City, UT 84108. Registration deadline: Thursday, April 4.

Note: 20% Off Tickets to "The Lehman Trilogy" with Bonus Tour of the New Meldrum Theatre: Following sold out runs in Los Angeles, New York, and London, The Lehman Trilogy will have its Utah premiere as Pioneer Theatre Company's inaugural production in the newly-built Meldrum Theatre at the Einar Nielsen Fieldhouse. Osher members who register will be emailed a special discount code to use when purchasing their tickets for any of the showings March 30-April 13. As a bonus, ticket holders will also be given the opportunity to attend a very special tour of the new theatre on Monday, April 8 at 11:00 AM. Osher members who have tickets to The Lehman Trilogy will be one of the first to see the new Meldrum Theatre! PTC's Associate Artistic & Outreach Director, Eric Jackson, will not only give us a behind-the-scenes look, but he will also share tidbits and highlights from the inaugural production. Space is very limited, so sign up soon!

	Note: Instructor: Terrell Dougan. Terrell has been writing since she was in third grade, reporting the exciting actions of her class in the School News and Views column in the Salt Lake Tribune. In high school she was a stringer for Good Housekeeping Magazine, and in college became a Guest Editor for Mademoiselle magazine. Her weekly humor column for the Deseret News began on the day Dorothy Parker died, and ran for 13 years. Her humor book about caring for her developmentally disabled sister, entitled THAT Went Well..... was published by Hyperion in 2009. She has been a blogger for Huffington Post and is working on a sequel to the book about her sister, dedicated to all siblings of those with disabilities.

	PED	**5900-001**	**RSC**	**4 - 6**	**Clinical Rsrch Mthds I**	**Tu**	**02:00PM - 03:30PM**	**EHSEB**	**2948**	**CLINE,KRISTEN** **HOLSTI,MAIJA** **OSBORN,KATHARINE ANNE**

Note: Students interested in taking this class must complete an application found here: https://utah.sjc1.qualtrics.com/jfe/form/SV_afTUBOcHBu33qvA. You can find information about the program on our website: https://admin.pediatrics.medicine.utah.edu/pediatrics/research/education/academic-associate-program. Please email PedResearchEducation@hsc.utah.edu with any additional questions. The student must also complete paperwork for hospital access before the start of the semester. Failure to do so may result in being dropped from the course. Additionally, there will be a mandatory course orientation on the Friday before classes begin. Information regarding the aforementioned hospital access paperwork and course orientation will be published on Canvas and sent to each student's Umail account about one month prior to the semester start date. Please check Canvas and Umail frequently for further updates.

	PED	**5901-001**	**RSC**	**4 - 6**	**Clinical Rsrch Mthds II**	**Tu**	**03:45PM - 05:15PM**	**EHSEB**	**2948**	**HOLSTI,MAIJA** **CLINE,KRISTEN** **OSBORN,KATHARINE ANNE**

Note: Must have completed PED 5900 with at least a B- to take the course. There will be a mandatory course orientation on the Friday before classes begin. Information regarding hospital access paperwork will be published on Canvas and sent to each student's Umail account about one month prior to semester start date. Please check Canvas and Umail frequently for further updates.

	PED	**5902-001**	**CLN**	**6**	**Clinical Rsrch&Medicine**	**Tu**	**12:30PM - 01:45PM**	**EHSEB**	**2948**	**HOLSTI,MAIJA** **KADISH,HOWARD A** **CLINE,KRISTEN** **OSBORN,KATHARINE ANNE**

Note: Due to high demand, students interested in taking this course must complete an application. Please contact PedResearchEducation@hsc.utah.edu for this application. There will be a mandatory Physician Extender course orientation in the Primary Children's Hospital ER on the Friday before classes begin. Information regarding hospital access paperwork will be published on Canvas and sent to each student's Umail account about one month prior to semester start date. Please check Canvas and Umail frequently for further updates.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

University Connected Learning, Flexible Schedule, American Institutions
American Institutions
Note: This class meets IN PERSON in BU C 107 the week prior to spring semester, Tues - Fri, Jan 2 - 5 from 8:00 a.m.-5:00 p.m., PLUS the 4th Monday of each month throughout the semester, Jan 22, Feb 26, Mar 25 and Apr 22, from 6:00-8:00 p.m. via CANVAS. Students are required to attend each class session and will be provided with a lunch break daily. In addition to time spent in the classroom, students will also be required to complete additional online lectures, assignments, and exams. Reading and/or assignments may be due prior to first day of class. Please check with instructor or refer to the class syllabus in the class schedule or Canvas. Please call 801.585.9963 with questions. To prevent time conflict errors, register to other classes first, then add this class using a permission code. Click here for more detailed information on registration and to get a permission code: https://continue.utah.edu/credit/codes To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

03/28/2024 - 03/28/2024
University Connected Learning
Meets with: PRTL 1120
Note: This course focuses on outdoor cooking and camping at a front-range campground. Students will learn about different cooking techniques and tools, such as a two-burner stove, whisperlight backpacking stoves, canister stoves, and/or dutch ovens. Students will learn about campsite selection, camping equipment, and how to prepare for their own camping adventures. Class meets on-campus on Mar. 28 only. Attendance at first class meeting is mandatory. Field experience will be Apr. 5-7. Overnight camping. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

02/29/2024 - 02/29/2024

03/13/2024 - 03/13/2024
University Connected Learning
Meets with: PRTL 1258
Note: This course will take us into the Dark Sky certified areas of Utah and surrounding public lands to explore a sampling of trails, buttes, vistas, and the celebrated dark skies of Utah. From our basecamp, we will venture out by foot during the day to explore wildlands. At night, we will journey deep into the cosmos to study the dark skies of Utah, explore indigenous interpretations of constellations, and learn why our state has more dark sky parks than any other in the nation. This course has two pre-trip meetings, day hikes, dark sky exploration, and overnight camping. Camping is required. Class meets on-campus on Feb. 29 and at the Clark Planetarium (downtown SLC) on March 13. Attendance at both class meetings is mandatory. Field experience will be from March 15 to March 17. Overnight camping. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

Meets with: PRTL 237
Note: This course will introduce students to top-rope climbing fundamentals, climbing movement, and anchors in an indoor setting. Fee includes use of Momentum equipment during designated class hours. Attendance at first class meeting is mandatory. The following classes will meet at Momentum Millcreek (3173 E 3300 S, Salt Lake City, UT 84109) on Jan 16, 23, 30, Feb. 6, 13, 20, 27, Mar. 12, 19, 26, Apr. 2, 9, 16. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php.

	PRTL	**1243-002**	**ACT 2**	**Intro to Bikepacking**	**Tu**	**06:00PM - 09:00PM**	**HPR N**	**226**	**RANDALL,NATALIE LIN**	

03/12/2024 - 03/12/2024
Note: BIKEPACKING IN BEARS EARS NATIONAL MONUMENT. Bikepacking - or, backpacking by mountain bike - is an increasingly popular way to learn about the outdoors. This introductory class is designed to teach students about an alternative choice of human powered adventure for outdoor enthusiasts. Bikepacking allows the adventurist to cover more miles than hiking as well as accessing dirt roads and trails that are otherwise inaccessible to other vehicles. In this class, we will cover various aspects of bikepacking including outfitting bikes, gear to bring, and tips for planning trips. Students will learn about public land policy, be more fluent in conservation issues critical to the State of Utah, and practice minimum-impact travel and camping techniques. Class meets on-campus on Mar. 12 only. Attendance at first class meeting is mandatory. Field experience will be from March 22-24. Overnight camping. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

02/29/2024 - 02/29/2024

03/13/2024 - 03/13/2024
Meets with: PRTL 258
Note: This course will take us into the Dark Sky certified areas of Utah and surrounding public lands to explore a sampling of trails, buttes, vistas, and the celebrated dark skies of Utah. From our basecamp, we will venture out by foot during the day to explore wildlands. At night, we will journey deep into the cosmos to study the dark skies of Utah, explore indigenous interpretations of constellations, and learn why our state has more dark sky parks than any other in the nation. This course has two pre-trip meetings, day hikes, dark sky exploration, and overnight camping. Camping is required. Class meets on-campus on Feb. 29 and at the Clark Planetarium (downtown SLC) on March 13. Attendance at both class meetings is mandatory. Field experience will be from March 15 to March 17. Overnight camping. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

01/31/2024 - 01/31/2024
University Connected Learning
Meets with: PRTS 2007
Note: This course teaches practical skills for travel over mountain snow, avalanche causes, snow stability, decision-making, terrain selection, and companion rescue. This course teaches to the modern Recreational Avalanche Level 1 standards published by the American Avalanche Association. Students must be capable to travel in variable snow conditions in steep terrain with backcountry skis/skins, splitboard, or snowshoes. This course is a prerequisite for PRTS 1304, Backcountry Ski Wasatch, PRTS 1457 Backcountry Ski Guide, PRTS 2008 Avalanche Level II, and PRTS 2009, Avalanche Rescue.For questions, please contact Nate Furman at nate.furman@utah.edu. Class meets on-campus on Jan. 31 only. Attendance at first class meeting is mandatory. Field experience is Feb 16-18. No camping. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php . PLEASE CONTACT CONTINUING EDUCATION FOR ADDITIONAL INFORMATION. This class meets at the Sandy Campus at 10011 Centennial Parkway, Suite 100, Sandy. For directions call 801.587.2520 or visit https://sandy.utah.edu

01/11/2024 - 02/22/2024
University Connected Learning
Meets with: PRTW 1317
Note: This pool course prepares kayakers for river running by introducing students to equipment, paddle and roll techniques, bracing, wet exits, rescues and river safety. Students should have the ability to confidently swim 25 yards and maintain a moderate level of activity for 2 hours. Class meets on January 11, 18, 25, February 1, 8, 15, and 22. Thursdays 6-8 pm, Pool B. Attendance at the first class meeting is mandatory. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

	PRTW	**340-001**	**ACT**	**0**	**Backcountry Yoga**	**Tu**	**06:00PM - 09:00PM**	**HPR N**	**226**	**OLLIVIER,APRIL**	

04/09/2024 - 04/09/2024
University Connected Learning
Meets with: PRTW 1340
Note: This introductory class is designed for students to unplug, let go, and find their Zen in a nature-based setting. The course will focus on forgetting about "what's next," making the connection between mind, body and spirit, and how we can more freely do this in nature by having a full sensory experience through sights, sounds, smells, etc. Students will also learn about camping (with Leave No Trace) and making healthy lifestyle choices. Students will have the opportunity to learn the necessary skills to enjoy entry level paddle boarding, hiking, as well as practicing yoga both on land and on the water. Overnight camping, outdoor cooking, hiking, and stand-up paddle boarding will be covered in this class. Class meets on-campus on April 9th only. Attendance at first class meeting is mandatory. Field experience will be from Apr. 19-21. *Drops are not possible after the second day following the first class meeting.* To determine the last day to drop this miscellaneous course, see http://registrar.utah.edu/handbook/miscellaneous.php

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.

Honors Course

Note: This course is reserved for members of the Honors College and/or Business Scholars program. Please check the prerequisite(s) to verify enrollment eligibility. The course fee covers all required textbooks and course materials at a reduced cost. Students may request to opt out here: https://portal.verba.io/utah/login

	STRAT	**3800-001**	**SEM 1**	**Explorers**	**M**	**05:30PM - 06:30PM**	**SFEBB**	**5160A**	**MCKELVIE,SEAN**	

Note: Explorers. Applications open in October 2023. Please visit our website to apply: https://eccles.utah.edu/goff/explorers/. This course is open to all majors, and does not have pre-requisites. Please disregard major requirements. This course is ideal for students who do not have prior internship experience (usually first-years and sophomores). Explorers is a strategic leadership internship course for students who want a little extra support in finding an experience/being successful in the workplace. Students are matched with an internship and meet weekly in a corresponding class. Through this class, students engage in leadership and professional skills development. Students gain real-world, applicable experience while developing skills such as self-awareness, personal agility, and the ability to deliver results with strong personal ownership. These skills will help students lay the foundation for future experiences throughout their college career.

	STRAT	**5300-001**	**LEC**	**3**	**Design Strategy Bus.**	**MW**	**12:25PM - 01:45PM**	**SFEBB**	**130**	**BOWEN,CORD ALEXANDER**

Meets with: STRAT 5850
Note: Design Strategy in Business. If you are unable to register, please email Cord.Bowen@Eccles.Utah.edu or Deb.Coffey@Eccles.Utah.edu to assist with a permission code.

	STRAT	**5750-001**	**LEC**	**3**	**Profiles of Leadership**	**F**	**09:30AM - 11:30AM**	**SFEBB**	**5130**	**MUKAI,KEVIN K**

Meets with: STRAT 6760
Note: This course is designed to acquaint students with trends and challenges of leading an organization in today's economy and business environment. This is accomplished by reading about and discussing current leadership topics and by introducing students to weekly guest speakers; business executives, community leaders and entrepreneurs. Guest speakers demonstrate leadership style and technique through lectures, recommended readings, and presentations.

This course has been developed in partnership with the Goff Strategic Leadership Center, whose aim is to change how organizations and people work by developing individuals into value creators. They do this by building a bridge between WHAT students learn in the classroom and HOW they work to drive impact as strategic leaders.

	STRAT	**5800-001**	**PRJ**	**3**	**Goff Trailblazers**	**MW**	**02:00PM - 03:20PM**	**GARFF**	**2120**	**BOXER,ALLISON CATHERINE**

Community Engaged Learning
Note: To learn more about Trailblazers, click here: https://eccles.utah.edu/goff/inside-the-classroom/. Students must complete a short application to apply for this Goff Trailblazers course. To be notified when applications open (shortly after fall break), please email GoffSLC@Eccles.Utah.edu.

	STRAT	**5820-001**	**SEM**	**3**	**Goff Scholars**	**MW**	**03:40PM - 05:40PM**	**GARFF**	**2345**	**AUSTIN,BONITA ANN**

Honors Course
Note: This 2-semester program is open to Goff Scholars only, and applications for AY 2023-24 are now closed. Please visit https://eccles.utah.edu/goff/inside-the-classroom/ to learn about other Goff programs, and email GoffSLC@Eccles.Utah.edu to discuss which program might be the right fit.

01/08/2024 - 05/05/2024
Community Engaged Learning
Meets with: LAW 7623
Note: Leadership in Legal Innovation. PRE-REQ: completion of I4J course. Please email Info@innovation4justice.org for additional information. The Leadership in Legal Innovation course provides an opportunity for students who have completed an entry-level course within i4J to advance their understanding of and skills in legal innovation. Students in this course will play a leadership role within the i4J in one of two ways: (1) active participation as a leader and mentor in an ongoing entry-level i4J course, mentoring students who are new to the i4J Program and assisting in facilitating of class activities and community engagement; or (2) active participation as a project leader for an ongoing i4J project, participating in i4J research and collaborating with the Program Director, peers and community stakeholders to advance the work of i4J.

03/18/2024 - 04/21/2024
Note: Tech Strategy. This is an ONLINE class. Session 3, March 18, 2024 - April 21, 2024. This course is about technology and the challenge of creating strategies that allow firms to leverage technologies to create innovative products, profit from them, and sustain their competitive and technological advantages over time. We explore the existence and identification of technological opportunity, patterns of technological change, the evolution of technology, the influence of technical standards, appropriability and intellectual property protections, and finally, the challenges of implementing a technology strategy. We conclude the class by exploring the strategic implications of AI—a truly disruptive technology. Regardless of your career choice, you will encounter situations where decisions about involvement with AI technologies need to be made. Technology strategy provides the tools necessary to make such decisions.

For course descriptions and pre-requisite information click on the subject column next to the appropriate catalog number.

THIS DEPARTMENT ENFORCES UNDERGRADUATE PREREQUISITES. Please note that the registration system may not factor in transfer work when determining if prerequisites have been met. If you are unable to register for a course and think you have met the prerequisite(s), please contact an advisor from this department to inquire about obtaining a permission code. You may be administratively dropped from a course if the prerequisite has not been met.
